The Indian medicine man cures by charms and incantations. He frightens away the "evil the sickness. He does all sorts of things that civilized people would call idiotic and barbaric, but the civilized folks are not so very much ahead after much ahead after all. They do just as foolish things as as foolish things as does the medicine man. They go along carelessly, and allow the little sickness to grow into the

big sickness. They allow constipation to grow into indigestion, heartburn, dizziness, headache, insomnia, and a nundred other distressing conditions. They do this frequently because they do not know the cause of their trouble. It is a pretty safe rule to look for the source of 9-10ths of human sickness in this one simple and appallingly prevalent trouble. Another foolish thing that smart people do is to take some alleged remedy for constipation and keep on taking it, day after day, month after month and year after year. Perhaps it is better to take the medicine than not to take it at all, but of course if they stop taking it, their trouble will come back. This last statement is true of every other medicine prepared for this purpose except Dr. Pierce's Pleasant Pellets. One "Pellet" is a gentle laxative, and two a mild catharic. They are gentle and efficient in their action, permanent in their results. You don't become a slave to their use, as with other pills.
